Steers are very quiet and easy to handle, a true credit to the vendors. Steers will only be freshly weaned for delivery therefore a basic settling in period and handling would be beneficial for the successful purchaser.

Assessor Comments	Buyers, an opportunity presents itself to purchase a very good quality line of 21 weaned steers. These steers present in store/fresh condition and will offer plenty of compensatory weight gain once settling into their new environment due to having been fully weaned & handled. Steers show all attributes to make great future feeders or bullocks, and will excel on grass, crop, or grain. The group are very good to handle and would be easy to have around.
