	The steers had a bit of run in them when put in the yards but we did run them straight in and start assessing. There a few were a bit stirry but more wanting to get out if your road than take you on. The odd lot didn't like the crush but nothing unusual there. They have been handled less than usual due to the wet season & would benefit from further handling.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Very good quality Angus steers that go back to one of the oldest Angus herds in the district. They have been weaned. Ideal feeder weight steers that are going forward and have the constitution to put on a lot of weight, they will continue to go forward on grain or grass. All the animal health treatments are up to date. NOTE The tail has been taken out the small steer that appear in the video is not in the assessment. There is another lot of heifers in this sale as well.
