These heifers are well mannered and very quiet. They were all easy to move around the yards, didn't stress when split from the mob and stood nicely to get weighed.

Assessor Comments

A very quiet line of 13-14 month old Kunuma and KO Angus blood Angus heifers presenting in strong store condition and weighing an average of 352kg at time of assessment and packing on the pounds every day. These heifers were purchased out of the Elders Cooma weaner sale in April 2022 and have been on grass pastures since. They are PCAS eligible and will make the perfect Maiden heifers ready for your bull of choice or suiting any backgrounding program. This is very even run of soft easy doing heifers with plenty of frame that will grow out into big productive cows given the opportunity. They have the right temperaments and confirmation to make a great asset to any breeding or backgrounding operation
