Assessor Comments	Very well bred line of vendor bred Hereford steers 360-475kg full to average 412kg (391kg empty). Steers generally grown out to fatten and kill on the Greenhams Never ever program - grass feed, antibiotic free. Steers have endured an overly wet winter and will flourish given the time. Steers good to handle in the yards with only 1 steer quick out of the crush. With genetics from Tobruk, Quamby Plains, Dalkeith, Yavenvale & Bendoc Park bloodlines. Can help with cartage to Wagga areas with weekly market trucks at buyers expense. Please note; A small lot of same vendors lighter steers also in this sale.
