Steers were a pleasure to handle in good facilities. One steer was a little shy when taking photos.

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments: 34 weaned, vendor bred, EU accredited steers that are 11-12 months and averaged 372kg at assessment. The Pavlire calves are sired by Table Top Angus and Hicks Red Angus Bulls with a focus on IMF and high growth when selecting sires. Steers that have great weight for age and present in forward store condition with plenty of frame and bone, ideal to finish on either grass or grain. These tops of the drop steers would normally be kept and grown out to heavy feeders but due to dry conditions they are been offered for sale.
