Assessor Comments	Opportunity to acquire a very smart line of NSM Crosby & Dunoon Angus blood heifers that average 397kg at assessment after a two hour curfew, ranging from 338-492kg, with 25/30 heifers being within a tight 60kg spread. with this in mind they would be ideal to feed on to heavy trade bodies for the early winter market. They are 13-14 months of age & will grow into a medium-large framed cows. The temperament of these heifers is second to none, all heifers were a pleasure to handle in both the yards & crush. Ideal heifers to take home & join to a bull of your choice for a Spring calving next year. Buyers please note small percentage of heifers noted with old vaccination lumps, 2 heifers noted with a slight cloudy eye at assessment with anything considered detrimental removed at assessment. Some of the angus heifers have white markings on their udders & flanks.
