Docile: 12 head Quiet: 96 head Slightly Stirry: 4 head	Docile: 21 head Quiet: 80 head Slightly Stirry: 11 head	Temperament not assessed in Paddock

The steers are well handled and easy to move without excessive bunching or anxiety in a relatively small yard. They block up well and require normal steadying through gates, the pound & race. The majority were very calm stepping off the scales with only a handful eager to exit quicker. Calm & inquisitive, free moving when walking through the yard for photos showing normal flight zone. The Mt Cornish cows are quiet & well educated very pleasant to handle..

Notable Traits

	Traits
2 Head	Fly rub marks - old
1 Head	Small ringworn around poll
3 Head	White underline, feet or markings

Assessor Comments Good quality Santa & Santa cross light feeder steers from a large frame herd of quality Santa & Santa x cows. The Mt Cornish herd are noted performing cattle having infused top quality Santa genetics over large frame quality Shorthorn cows over many years targeting the feeder and weaner market. The draft is very even 390-480 full - very good frame , stretch and bone. 3 heavier cut horn otherwise they are very clean and tidy around the head.
