Assessor Comments	A good quality line of vendor bred Angus and Angus cross weaned heifers, bred out of good quality large frame cows. Weaned back in late April cattle were confined due to the recent catastrophic weather events in this area, cattle did not stand in flood water at all thus the reasoning for confinement. Weaners have been on cattle nuts and hay through this period, put aside the the mud through the coats of these animals cattle present in good condition considering the the recent weather events of this area. Given a crop or some fresh grass and sun cattle should bounce away quickly. Vendor is offering free transport with their own truck to locations 100 km north or south of Kempsey, also to the west on the Tablelands too the Dorrigo area or the Armidale saleyards. Please see another line of steer weaners in this same sale.
