	One heifer was a little unsettled on the scales but settled once back in the mob. Being fed hay has these heifers comfortable with human interaction and they are quiet. Typical of weaner cattle to handle.

Assessor Comments	Vendor bred poll Hereford heifer weaners with years of Wirruna Poll Hereford genetics invested into the herd. Presenting in store condition having the frame and with minimal fat cover offering immediate compensatory weight gains given quality feed. They are 100% grass fed and antibiotic free and Greenhams Never Ever accredited. These heifers are typically retained or fattened to kill weights and are only being offered for an early sale due to the tight season. Benambra Pastoral was awarded MSA's Top 100 Producer 2023 for previous progeny sold to slaughter in 2021-2023. A true testament to the performance of the genetics invested into the herd. Breeders cattle that are not always offered to the open market, presenting profitable trade options for the successful purchaser given the position of the cattle market currently. Realistically reserved with spring growth near. Should you require any further info please call. Please note - vendor is also offering the brothers in today's sale.
