Assessor Comments	A line of 22 Angus steers These steers are beautiful wedge shaped, while showing plenty of muscle expression, while also having plenty of growth and frame as well. The steers are either bred from the vendors herd of Angus cow and calves with the steers being sired by Mirrabooka Angus bulls and Fox Pastoral or have been brought in as cow and calf units over the last 12 months. Please note; Small % of steers were noted with old pink eye scarring and small amount of ring worm and the odd steers were castrated late. Steers are performing well and would normally grown out to feeder steers but are being sold due to Floods.
