|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Assessor Comments | A line of 8 Friesian steers that are displaying plenty of growth and bone. The steers were purchased off local dairy farmers as bobby calves and then reared by the vendor. The steers would be ideal cattle to put onto feed and watch them bounce ahead or they could be grown out for grass-fed bullocks as well. The steers have had 1 dose of 7 in 1 on the 21/07/22. Please note the vendor is offering another lot in this sale as well. |
