Very quiet cattle. SturtVale cattle have been handled very well and culled on temperament for a long time. Very quiet to work through yards and race, all stood still on platform for weighing, all were very easy to mouth in head bail with no chin guard.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles
Assessor Comments	Good line of mixed sex cattle presenting as the top 50% of the mob. Dry conditions persist so fats are light but cattle present as a great line of healthy cattle perfect to trade onto feed. Cattle will respond well to feed, good frame over the majority, ages mixed per normal pastoral conditions but all were mouthed finding only 6 x 2 tooth's. Noted 25 with either cloudy or white dot on eyes, cattle will carry very light bathurst burr and medic on pizzle.
