Heifers were well behaved at assessment for cattle that haven't had much time in the yards due to a very wet winter &																			

spring. Some heifers were pushy in the race but fine in the crush and wouldn't take much for them to get use to a race with a bit of time.

Assessor Comments

19 Rennylea, Ardrossan & The Glen Bld Angus X MG 14-15 mth heifers. These heifers present in fresh healthy store condition are a ideal line of VB & GFNA cattle that will not disappoint. Bred from large frame Angus X MG cows have great bone, length and all the potential to target any market put on the right nutrition going forward and not carrying any excess condition will no doubt stack the weight on going forward from what has been a very wet winter & spring. A 5% tail was removed at assessment so buy with confidence.
