Assessor Comments	An opportunity to obtain an even line of vendor bred Angus steers weighed out 250kg and over to average 280kg at assessment. These weaner steers are in forward store condition and are very healthy and fresh in the coat moving forward having been supplemented through the winter with a small ration of DDG pellets. Steers carry Clunie Range, KO and Gilmandyke genetics and are usually taken out to feeder or trade weights, a failed Autumn on the tablelands has forced the sale. Ideal steers to background and/or feed on with a start on the pellets. A small percentage of steers recovering from ringworm, see photos.
