	Fresh young calves that have had very minimal handling. Very good to handle in the yards, But last time they were in the crush they came out 2 stone lighter, so were a bit fractious, just a bit of rocking back and fourth and exhibiting some nervous behaviour, settled very well once back in the mob. Good to let out in the paddock to take photos of.			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	Very smart line of super fresh, healthy young calves in a lighter weight bracket. Calves are in excellent order, have never seen a set back and have been given the best start possible by their hard working mothers. Plenty of length and shape with good width right through them - between their eyes, shoulders & down to their hips. Out of Large framed Cows, these weaners would be suitable as a feeder, but also have the scope to carry through to a bullock weight. Calves will remain on			

the cows up until delivery. Buyers please Note. 3 steers noted with a white splash on their belly. 2 steers noted to have white in front of their navel. Please see photos & videos for full contentment.
