Assessor Comments	An nice sized lot of 4.5 year old Cows in ideal store condition to calve down in early Spring. Only selling due to surplus of needs and with the tight winter period. Cows are PTIC to an Angus Bull due to calve in mid to late September for a very tight period of 5 weeks and so be finished calving by the end of October. An ideal article to not only gain a calf but also have the ability to add weight to the cows through the Spring period.
