Comment on Fat Score 1 Cattle: All the steers are healthy and strong. Fit to load guidelines will be followed at delivery. Buyers please note there are 2 other lots of steers from the same vendor in this same sale.

Vendor Bred: No
Vendor has owned stock for 6-12 months

Stock History: The vendors purchased "Pindari" and its renowned breeder herd early this year. These steers are calves off those cows so are born & bred on this property. Steers have been cross branded at takeover.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: The "Pindari" Droughtmaster breeder herd has a strong reputation of a functional and performance focused herd. Large % Medway Droughtmaster sires.

Grazing Conditions: Since weaning these steers have been grazing in paddocks of Buffel, purple Pidgeon and native grasses all of which have been frosted. Recent rains have some green flag starting to come through underneath.
Returned same

Burr/Seed in Coat: No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status: The owner declares that the cattle have not been treated with HGP at any period of their lives

WHP/ESI: Cattle are within a Withholding Period or Export Slaughter Interval for: Baymec LV pour on as of 03/08/2025 for 42 days

Good	65%				
Fair	10%				

Temperament

Yards	Crush	Paddock
Docile: 120 head Quiet: 50 head Slightly Stirry: 6 head	Docile: 50 head Quiet: 114 head Slightly Stirry: 12 head	Temperament not assessed in Paddock

Buyers these steers were a pleasure to draft and assess. They are very quiet with plenty of time going into their weaning and education. Only a very small handful got unsettled in the crush and quicker in the pound. Quiet, well handled steers. Please refer to my videos for each lot to showcase their steady quiet nature in the yards. Vendor has 2 more lines of steers in this same sale.

Handled With	Bikes , Horses , On foot , Vehicles
Assessor Comments	Buyers please consider this genuine lightweight line of 176 weaned Droughtmaster steers (4 decks). This is the lightweight line of steers drafted out, vendor also has a heavier line of steers also in this sale. Weighing from 171-253 kgs and average 215 kgs full at assessment, or approx 205 kgs at delivery. These steers have been fully weaned and educated, all the hard work is done and they are ready to perform. They have been pre treated for ticks with Baymec LV pour-on, with no visual sign of adult tick at assessment. For tick free buyers the vendors will guarantee delivery clear of the on farm certified plunge dip at "Pindari". They were a pleasure to handle/assess and i have full confidence they will go on and perform to reach heavy feeder weights or finish. Buyers please note when they were on the cow they and their mothers had access to dry lick which had a rumen modifier in its ingredients, steers not PCAS eligible. The vendor has 2 more lines of weaned steers in this same sale.
