Assessor Comments	A quality line of X bred heifers. They will grow into good feeders or have enough quality to be future breeders. These heifers mostly show a Simental influence, either red or traditional with the balance being droughtmaster and a few angus. They were weaned off their mothers last week and have been on good quality Lab Lab hay and have been worked through the yards a couple of time. They showed good temperament when weighing and drafting them and were settled to walk amongst to take photos.
