Assessor Comments A very well educated and presented line of 72 No.2 Steer Weaners. Cattle that are ready to do on good feed, suited for the feeder markets big weight compensatory gains to be had as these steers present in working condition. A good mix of hybrid vigour with 10 steers showing slight to medium hump. 75% Vendor Bred & 25% purchased as calves earlier in the year. All weight at assessment from 254kg to 411kg to Av. 315kg - don't let this 157kg spread let them down they are a very even line of cattle. This lot does include 4 late cut (in the last two weeks) steers & one steer with a very slight dimple on hind rump. Please view video and photos for better knowledge.
