Steers have been weaned straight off mum so have been described as slightly starry to stirry. Every effort will be made to handle weaners until delivery. Having just been weaned please drop in yards on delivery and make your own assessment if steers need more weaning and education.

Handled With: Bikes , On foot , Vehicles

Assessor Comments	108 Angus Steers, Nov/Dec 2024 drop. These steers are well bred out of Scott's Angus bulls and well grown for age however present in store condition and are certainly not carrying any excess weight. Steers weighed between 260kg and 350kg, averaging 297kg at assessment. Usually these steers would be grown out to feeder weight and on fresh feed will not take long to get there. Please note some weaners are showing rub marks from lice, Vendor drenched with dectomax at weaning (5.8.25). Due to weaners being in the yards from Monday (4/8/25) It is best to be picked up as early as possible, These steers also need to be dropped in yards on delivery and purchaser make own assessment on further education.
