Temperament

Yards	Crush	Paddock
Quiet: 32 head Slightly Stirry: 2 head	Quiet: 21 head Slightly Stirry: 11 head	Temperament not assessed in Paddock

	The steers were mostly good to handle in the yards and through the race and crush. 11 became slightly agitated in the weigh box or in the crush while another 2 head were highly agitated in the crush / weigh box and exited quickly. All settled when back in mob in the larger yards. Cattle just need to be approached and moved calmly.

Assessor Comments	A good to very good quality line of vendor bred Charolais and Ultrablack cross steers. With medium to large frame they are ideal to background to heavy export feeder weights. They also suit to take directly onto feed for the domestic supermarket trade. While no active pink eye was observed one steer noted with a slighlty weepy eye and they will be checked prior to delivery. One steer with slight thickening in the sheath but is not staggy or showing any SMSC. These steers are located right on the Leichhardt Hwy between The Gums and Moonie and would work in with trucks moving north and south. Please note delivery notice required to allow time to muster and draft steers.
