	These heifers were a pleasure to handle in all areas of the yards. This is a result of being handled properly at weaning and the general management of the entire herd. Only the very odd heifer could be considered slightly stirry in the crush only.														
Handled With	Bikes , Dogs , Horses , Vehicles														
Assessor Comments	An outstanding quality line of young Angus future breeders bred out of some top quality classed herds of females. They demonstrate excellent weight for age, depth of barrel and length and have presented in very good condition. These tick all the boxes depending which enterprise you need them for. Suit to replenish depleted breeder herds for a continuation in the Angus industry or very suitable for a Wagyu program. The cattle industry is in great shape, the seasonal conditions are the best they have ever been so there is plenty of justification for this purchase. There are another 50 of the same heifers also in the sale. Of the 73 heifers assessed there was noticed about about 2 head with old blue eye scarring and about 10% with a small amount of white on the udder. Heifers of this quality are almost impossible to access, so buyers are urged not to miss these. These will be delivered as a "run out the gate " with emphasis on supplying even lots in the event of multiple buyers.
