Temperament

Yards	Crush	Paddock
Quiet: 49 head Slightly Stirry: 2 head	Quiet: 45 head Slightly Stirry: 6 head	Temperament not assessed in Paddock

Cattle were good to handle throughout the yards and crush. 6 head became slightly agitated in the crush and would not settle while being assessed or while being mouthed. All settled when back in the yards together and remained quiet when being photographed. Cattle are worked using Low Stress Stock Handling techniques.

Handled With	Bikes , Dogs , Vehicles
Assessor Comments	A line of fair to mostly good to very good quality medium to large frame Angus and Angus x heifers. These heifers are unjoined and were scanned at assessment and all are NDP. Approx 60% of the heifers are vendor bred and are by Lawson and Te Mania Angus bulls. All were mouthed at assessment with 42 x milk tooths and 9 x 2 tooths with most of the 2 tooths just breaking their milk teeth. Three heifers with a mild blue or moderate blue eye spot in one eye not considered detrimental . They have a LWR of 369 - 461 kg full weight and they suit to take directly onto feed for the heavy end of the domestic markets or the light export market. Please note another 2 decks of similar weight mostly Char x heifers from this vendor at their second property located 35km away. This is a nice line of Angus and Angus x heifers which are healthy and in ideal feedlot entry condition.
