Vendor Comments	Would normally hold onto weaners till Feedlot weights. With such a buoyant market I am taking the opportunity to sell early. There is the odd steer that has been late marked that may be a little swollen still.

Very odd steer became a little stirred when in the crush but settled once it rejoined the mob. No steer became aggressive at all. Well handled young cattle. Assessor Comments	A great line of quality young Shorthorn steers that have been born into a good season and show some of the softness that Weemabah Shorthorns are known for. Steers handled very well throughout the assessment. This is the top draft of the Moombidary steers for this offering and present very well and are a great opportunity to purchase top quality Shorthorn steers. Very odd steer marked a little late and may still be a little swollen at delivery, if there is any problem at delivery it will not be loaded. These steers have decades of breeding behind them and will not disappoint on grass or grain. Ideal steers to take on and grow out for other markets. Steers have in and around yards for the past 6 weeks due to extended mustering. I expect the steers to go ahead quickly once given some dryer conditions. Same vendor has 1 other lots of Shorthorn steers in the same sale totalling over 298hd of the one brand. At assessment steers had a weight range of 250-404kg to avg 292.8kg

Trucking Access	All size combinations have good access. Local carriers can be arranged if need be. Vendor understands the flooding in Eastern Australia and is willing to work with buyers to a suitable delivery date for both parties.																																																																
Delivery Comments	There is no wet weather access. A weather change is coming through at time of assessment so delivery dates may vary depending on rain fall. Vendor has 2 lots of steers in same sale so a conjunctional delivery would be greatly appreciated.
