	Weaners are very well handled and were a pleasure to work through yards during the assessment process.		
Handled With	Bikes , Dogs		

Assessor Comments	88 good quality Droughtmaster steers presenting in healthy store condition that had a LWT range 201kg - 277kg full to average 211.7kg after a -5% curfew. Buyers this is a great opportunity to secure a line of PCAS and grasslands eligible weaned steers with no excess condition that have been bred in lighter country and will perform if introduced to a higher nutrition. The Craigie Station cattle are renowned for their doing ability and performance and these steers will suit to background for a feedlot market later on or would be suitable to grow onto bullocks. Please note; Same vendor has another lot in same sale. % of steers have very light ringworm and light rub marks on neck area.
Assessor	**Ben Johnston (Level 1 Accredited)**
