Mostly very quiet heifers. 2 heifers were agitated in the crush, the rest were very calm and quiet. These heifers were a little reluctant to move off you and lead up the crush however worked well through the back yards with only one heifer remaining slightly flighty.

Assessor Comments

A deck of quiet, soft British bred heifers with 70% being Angus . Three quarters of these heifers were assessed as very good quality and a quarter as good quality making them highly suitable for future breeders and join to the bull of your choice. All heifers have the temperament, softness, quality and maturity to join as future breeders or feed as feeder heifers. Please note 2 heifers do have a small amount of warts on their nose.
