Heifers ran through the yards well at assessment. These Heifers are quiet stiry when pressure is applied, I would highly recommend Heifers to be handled by well experienced stockman.

	Traits
3 Head	Little navel
5 Head	White around udder

Assessor Comments A good line of well bred Angus Heifers. These Heifers present in ideal condition to continue to go ahead on a Winter crop to take through to heavier weights to join or feed. Looking at these Heifers I would recommend these Heifers would benefit from a drench. Heifers are out of a very good Cow herd what is culled on fertility every year. Vendor has been purchasing by from Texas Angus and spends from $9,000 to $20,000 on their Bulls focusing on good 200-400 day growth, EMA and IMF. Noticed at assessment 3 Heifers with old scarring on their eyes but not detrimental.
