Assessor Comments	18 weaned heifers that are very well bred. These heifers have experienced a very wet autumn and winter. Their mothers, (PC Angus and Pentire Angus Blood) are medium to large frame cows and these heifers are sired by Pentire Angus Stud Bulls. They are long, soft, with plenty of bone and shape. This group of heifers are just waiting for some sunny days. Bred from a herd - sires are selected on high performance genetics, longevity and confirmation. They display all the traits of well bred Angus cattle. Really easy to handle and well educated - would suit large or small operations. Ideal to grow out as future breeders or to fatten for domestic or export markets. There is a lot of upside to these heifers. Vendor Bred, Antibiotic Free and Grass Fed.
