Quiet: 11 head	Quiet: 10 head Slightly Stirry: 1 head	Quiet: 11 head

Cows are well handled and were generally relaxed and calm whilst processing through the yards and crush. 1 cow was unsettled whilst being mouthed, but relaxed when returned to the mob

Handled With: Bikes , On foot , Vehicles

Notable Traits

	Traits
1 Head	slight white udder on one of the pure Angus cows

Assessor Comments: A good quality, smaller line of heavy cows, with very attractive shapey calves at foot. These cows were purchased as part of a larger line of cows sourced through saleyards in the Central Tablelands & Central West of NSW, in store condition earlier in the year, to utilise forage crop feed & add value by fattening. This mob represents a line that calved out in the process of fattening. These cows appear to be well bred for the most part, exhibiting good to large frame along with good body length & shape & are presenting in very forward/fresh to prime condition. The marked calves at foot are sappy, & displaying very good carcass shape & softness, & despite unknown bloodlines, they are all exhibiting a high degree of breeding, which is affirmed even further through their early weight for age gains. All cows were mouthed at assessment with 10 out of the 11 cows displaying very fresh middle aged teeth, with only one cow presenting as past her prime with a full compliment of very worn teeth.
