| Assessor Comments  | A good to very good quality run of Angus steers. Well educated and a pleasure to handle. These steers have not had a setback and on good quality feed should continue to power ahead. These steers are suited to do a trade feeder job, an Angus feeder job, of take through and fatten as a bullock. Please note one steer has large blue scarring spot on his eye, 4 steers do have small white markings around their cuds and 2 steers are showing a very small amount of sheath on pizzle and may contain tropical breed content some generations back. |
