Assessor Comments	Buyers a very rare opportunity to buy a run of 400 highly regarded organic certified 2 Y/O scanned empty ewes from 'Plevna Downs'. Ewes are ideal replacement woolgrowers or perfect to join to ram of choice this spring. These ewes are best described as large frame and forward store to prime condition. Ewes were shorn late June and have bounced ahead since shearing and doing very well on a variety of herbages and grasses. These ewes have been scanned empty on 28/07/25 by Damien Pollet after their first joining. The 'Plevna Downs' flock are very well known for their wool growing ability in both quantity and quality. **Vendor is offering a very generous 1000km of free freight to the purchaser so not to be missed**
