	Steers were settled well while assessment was taking place, they were drafted through the weigh box as older steers & Heifers were split off. Steers walked well through the assessment process and walked quietly back to their mates in the back yards		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A nice draft of 26 young steers, they displayed nice length and bone and should have the ability on the right feed to perform well. The Santa/Charolais cross works well and softens the cattle up. All bred out of big frame Cows and with the family always buying in good genetics. There is 1 Charolais steer with a short tail as shown in the photos. Ideal Steers for a Trade job or great opportunity to grown out to Export weights
