Vendor Comments Annual draft of weaned steers. Just starting to really do. Mustered with bikes and dogs.

Handled With	A percentage of steers did stir in the crush whilst being assessed but settled once released. Bikes , Dogs
Assessor Comments	A line of weaned Angus steers with Wattletop Angus bloodlines presenting in store condition. Strs were good to run through crush at assessment with some stirring in crush but settling shortly after. Strs are showing good frame for their weight and are just starting to clean up in their coat and really do. Strs did it hard through winter with it being so wet and cold and should present buyers with good compensatory weight gains. **Please Note** 2 steers had ringworm on their eye. Vendor has another lot in the sale.
