Health Treatments

Vaccinated	28/08/2025	Bovillis MH + IBR	First Dose

Vendor Comments A good quality line of steers that have really impressed since their arrival on performance and temperament.

Temperament

Yards	Crush	Paddock
Docile: 10 head Quiet: 77 head Slightly Stirry: 15 head	Docile: 6 head Quiet: 80 head Slightly Stirry: 15 head Stirry: 1 head	Temperament not assessed in Paddock

An easy mob of steers to draft and handle through the yards and crush. Steers flowed through with ease with nothing really stirring up. Overall steers were quiet and well educated.

Handled With	Bikes , Vehicles

Notable Traits		Traits
	15 Head	Old blue eye scarring. (small, not effecting)

Assessor Comments	An excellent quality line of feeder steers that are grass fed. These steers since their arrival from being purchased from the Casterton weaner sale in late January have been a pleasure to handle and performed very well. At assessment steers were given their first dose of Bovillis MH + IBR to help with buyer requirements in moving forward on feed. In the past month the mob has really excelled in weight gain. A perfect opportunity to tale these cattle forward with little set back. Any steers noted with blue scarring on eye are minimal and none showed any effect in their overall vision. Overall this line of steers are heavy boned, quality steers that are full of top end breeding.
Assessor	**Justin Sanderson (Level 1 Accredited)**

Delivery Period	08/09/2025 to 12/09/2025 (5 days)
