Quiet: 42 head	Quiet: 42 head	Temperament not assessed in Paddock

These heifers were really gentle to draft. They penned up well and flowed up the race well. The few that were not settled in the crush settled quickly when back with the mob. They have been very well handled by the vendor with horses' dogs and bikes and have been mustered and moved since weaning a number of times. They were a lovely quiet mob to walk through and take photos with no sign of panic or flight

Handled With	Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	A good quality line of predominantly crossbred feeder heifers. Vet preg tested empty on 28th of July and with no access to bull since. 40 milk tooth and two just breaking teeth. The heifers are very easy to handle being mustered with horses, motorbikes and dogs came through the yard easily. They were treated with starmech injectable on 8.9.25.
