Assessor Comments	Buyers a great opportunity to secure a lightweight Vendor bred line of Angus heifers presenting in store condition. Heifers were early weaned in April due to seasonal conditions but have bounced ahead since recent rains and are now grazing wheat and achieving very good weight gains. Heifers are out of good framed Angus cows and sired by Booramooka ,Coollie and Tevoli stud Angus bulls and were bred at Vendors three properties before being returned to Earlwood as weaners .Heifers ideally suited to take through to the lucrative Angus feeder market, alternatively they have the breeding to take on to joining weights and be an asset to most breeder herds. Please note four heifers had old blight scarring in one eye and some showing slight lice rub marks , two have white on underbelly neither considered detrimental. Vendor has another 3decks crossbred sisters this sale
