Assessor Comments	A good quality line 66 Simmental cross heifers. They have plenty of bone and stretch to take through to feedlot or heavier kill weights or future breeders. Heifers mainly sired by Simmental and Angus Bulls with one Charolais bull. Cows are mainly Droughtmaster X, Charbray, Charolais, Brangus, and Composite cows.. It was noted some Heifers appeared to be self weaned. They will be handled and fed good quality oaten hay in yards up until delivery. Some of the heifers are vendor bred however, some are not vendor bred as were purchased as a cow & calf unit. A great line of weaned heifers that will continue to move forward and be a quality asset to any future breeder operation or to suite any market.
