Assessor Comments: Good quality line of Angus steers with frame and stretch to go on and perform. Steers are forward and are on a rising plain of nutrition with some steers really starting to freshen up over the last few weeks. Some steers have hair swirls on their poll but were thoroughly inspected and no scurs were found, steers were purchased from various geographical locations reflecting in different types. Refer Video. One steer with white on his sheath and one steer with some white forward to his brisket. 2 Steers with small blue spot in one eye. A good sample of steers were mouthed with most either milk or breaking 2 and some solid 2 teeth up. A Large percentage of steers were purchased as one line ex Belltrees Station Scone. Steers
