Assessor Comments	An Excellent line of Wirruna Blood Poll Hereford steers. Steers were a pleasure to handle at assessment and in paddock doing photography, being so quiet they will preform to feed on. Having good Dark skins and heavy bone and great weight gain for age these steers would be ideal to feed on to bullocks. They have been running on mixed grazing crops gaining an average of 1.8kg/day in cold conditions for the past month and all health management is up to date. Can buy with confidence to perform in a feedlot or crop situation for a short turn around to kill.
