Assessor Comments	A nice line of one mark Hereford steers that present in fresh forward condition. Steers show good growth for age and generally show solid confirmation. Steers have all started to drop their winter coats and starting to improve with the warmer conditions. Given the right opportunity these steers would suit feeder or kill markets in the future. steers are up to date with animal health and were good to handle at assessment. Note odd steer marked at weaning but is not showing any primary characteristics
