Totals			**100%**	**100%**

Comment on Fat Score 1 Cattle: Steers are in strong store condition and they are OK to travel any distance as well as standard industry practices are followed.

Vendor Bred: Yes

Stock History: Vendor bred - Mooroobie Angus bulls x Angus cows.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: Mooroobie (Goondiwindi) Angus bulls used for at least the past 10 years with a focus on 600 Day EBV and calving ease (for selected heifer bulls).

Grazing Conditions: Grazing native and improved pastures consisting predominantly of Bambatsi, Green Panic, and Queensland Bluegrass. Steers are now moving ahead nicely on spring pastures. No oats over winter.
Returned same

Burr/Seed in Coat: Native medic burr noted in coat and tail.

HGP Status: The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments				
	Vaccinated	29/09/2024	5 in 1	First Dose
	Vaccinated	30/04/2025	5 in 1	Second Dose

Vendor Comments	Weaners had access to Nutramix NRG dry season supplement over the winter. Steers did not have access to quality feed to perform over the winter (no oats crop this year) compensatory growth now averaging 1.04kg/d over the last 30 days.

Quality Grades		Store Condition	
Very Good	21%	Store	100%
Good	76%		
Fair	3%		

Temperament

Yards	Crush	Paddock
Quiet: 32 head Slightly Stirry: 2 head	Quiet: 31 head Slightly Stirry: 1 head Stirry: 2 head	Quiet: 34 head

Steers were generally very good to handle in the yards and through the crush. Three head would not settle fully in the crush or exited quickly. All settled once back in the yard. Steers all walked out calmly and were quiet when let out into holding yard

Handled With	Bikes , Horses , On foot , Vehicles
Assessor Comments	A fair to mostly good and very good quality line of vendor bred Angus EU accredited steers. With medium to large frame they suit to background to mid or heavy Angus export feeder weights. These steer are Grasslands accredited and are eligible for most other Grassfed programs (they have had access to cottonseed). Approx 30% of the line were weaned in 2024 with the balance 2025 weaners. After a slow winter season they are moving ahead nicely on fresh spring pastures. Two steers noted with slight blue spot on one eye and four noted with small number of warts on face - not considered detrimental. Seven steers noted with small amount of white on rear underline or around cod. They have had 5 in 1 with a booster at weaning. Please note another line of heavier AA Bovilis treated steers available in same sale to fill B Double truck if required.
Assessor	**Andrew Wilkie (Level 1 Accredited)** Phone: 0427 011 608 Parallel Assessed By : Lawrence Sehmish-Lahey
