Assessor Comments	Very well bred line of NSM Angus heifers. Heifers represent the 2nd line of classed breeders in the Lerida operation. Heifers are well grown for their age and are maturing well after a previously tough season. They are good framed females and this represents an annual sale for their operation and are equally suited to a breeding program or ideal to feed on. They come from a well regarded operation and are bred from genuine predominately large frame big soft easy doing females. They carry a clean bill of health and will continue to perform if shown the correct management and nutrition. Heifers are grassfed eligible. Heifers to be offered in groups and will be delivered via the drafting gate to ensure evenness at delivery, Please call for further information.
