Comment on Fat Score 1 Cattle	Fat score 1 heifers are all in strong condition and fit to travel long distances, however may need to be spelled if going more than 1200km.
Vendor Bred	Yes
Stock History	Heifers bred from very fertile Medium Framed Brahman and Brahman Cross cows. Heifers were sired by Three D and Jaffra Brahman Bulls
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Grazing Conditions	Since weaning heifers have been grazing on red sandy country grassed with Spinifex, Buffel and Forest Bluegrass with patches of black soil flats growing Mitchell and Flinders grass. Returned to: Fresh open downs paddock with Mitchell, Flinders, and Buffel grass
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Joining Details	Not Station Mated
Any Access To Bulls	Yes, last access to bulls/stags: 30/03/2025

or Stags?

Joining Access Details	2 young Brahman Bulls got in with heifers for about all of March 2025. Vendor presumes no heifers were heavy enough to get in calf and I never saw anything that looked 6 months in calf.

Quality Grades

Very Good	5%
Good	60%
Fair	33%
Plain	2%

Temperament

Yards	Crush	Paddock
Docile: 10 head Quiet: 137 head Slightly Stirry: 8 head Stirry: 5 head	Docile: 8 head Quiet: 130 head Slightly Stirry: 15 head Stirry: 7 head	Temperament not assessed in Paddock

Heifers are well handled and all worked very well through race draft in yards, and settled down quickly once out in big yard. They were a pleasure to work both in the crush and yards.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Horses
Assessor Comments	160 heifers that at assessment ranged from 251- 371 kg and averaged 305 kg. Of the 160 Heifers there is approximately 90 greys, 51 red and honey, 14 black / brindle and 5 yellow Charbray. There is 1 heifer with a small naval hernia and 1 with only half a tail. Of the 107 horned heifers about 14 have longer horns but the others have only short regrowth horns and may require trimming in the future. We started mouthing all the #3's but as all smaller 3's had milk teeth we just mouthed all the heifers over 350 kg and 70% of them had milk teeth. Their temperament is very good and they have been well handled. There is 3 family brands in the mob. These heifers would ideally be suited to grow into small to medium framed low maintenance very fertile breeders, or live export feeder heifers. Even though there is no tick on the heifers they are located in tick area and if going to tick free country, they will be cleared of tick on property or in Cloncurry at vendors expense.
Assessor	**Jim Brodie (Level 2 Accredited)** Phone: 0427 468 713
