Comment on Fat Score 1 Sheep: The ewe lambs are in high 1 score and will be fit to travel long distances if required.

Mulesed	Yes
Pain Relief	Yes
Mulesing Types	Moderate: 100%
Shearing Info	Shorn 05 Sep 2022 Not Crutched
Wool Length	60% 0.5 - 1" 40% 1 - 1.5"
Majority Length	20 Millimetres
Degree Burr	Nil
Degree Seed	None Observed
Shedding Breed Contact	No known contact with shedding breeds
Skin Comment	Good healthy skins. Excellent wool growing skins.
Wool Comment	High yielding, excellent crimped soft white wool. The ewes are bred for high quality and quantity wool production. Very bright wools to breed on.
Vendor Bred	Yes
Bloodlines	TC Partners have predominantly used Hazeldean Merino Sires, with small infusions of selected Moorundie Park sired.
Grazing Conditions	Fertilised native pasture with sub clover base. Returned same
Introduced Sheep	1-5 sources of sheep have been introduced onto the consignment property in the last 5 years

Footrot	All consigned sheep are from a flock that is free of Virulent Footrot Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald Further Information: As with most flocks on the tablelands area, scald can present itself in wet conditions. Due to the wet year that the vendor has experienced, the flock has been walked through a zinc sulphate foot bath when required. Feet were not inspected at assessment
Lice	All consigned sheep are from a flock that is free of Lice
Scabby Mouth Vaccination	100% of this consignment have not been treated with a Scabby Mouth Vaccination prior to sale
Health Treatments	Drenched 10/10/2022 Cydectin
Health Declaration	A National Sheep Health Declaration will be provided at Delivery AT BUYER REQUEST
JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 14 years
Other JD Management	All ewes are vaccinated with Gudair annually.

Vendor Comments	We are proud to offer the last of our merino sheep. Our final dispersal of merino sheep. Lovely young ewes who produced $59/hd in wool at 15.3 micron for 12 months growth. Grown sheep ave 18.2 micron and generally weigh 55-60kg.

Joining Details	Not Station Mated
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.

Wrinkle Score	
Light	80%
Medium	20%

Assessor Comments	A tidy group of Sep/ Oct 2021 Drop merino ewe lambs. This lot represents a 2nd group of ewe lambs from the TC Partners flock dispersal, a further tail of 5% was removed at assessment. The ewe base is classed for high fertility, scanned annually with all drys sold. Quality and quantity wool production is paramount and rams are selected for high profitability traits of low micron, high fleece weight and high carcass growth. The odd ewe has some scur and there are some ewes with long toes, a symptom of the very wet conditions they have experienced. Excellent ewes to back ground and join from February on to the ram of your choice.
Assessor	**Bill Frew (Level 1 Accredited)**

Delivery Period	22/11/2022 to 29/11/2022 (8 days)
Delivery Point	784 Taylors Creek Rd
