Assessor Comments	A neat road train (4 decks) of black cows & calves, these cows were a pleasure to handle at assessment. The Lighter cows at assessment are the youngest drop (3 years) that have transformed since heading north on agistment.The majority of the mature cows are large frame and will offer a big residual value as future splitter cows. Odd cow shows a slight degree of cross, but are minimum 75% Angus. Very healthy sappy calves at foot sired by quality Angus bulls. Please note Cows were weighed at assessment after overnight off water approx (15 hours) in a small dry grassed holding paddock.
