Assessor Comments	Here is an outstanding opportunity to secure a line of Young EU Angus Cows that are renowned for their strong maternal, growth and temperament traits, these young females come with my highest recommendations, and I am confident they will be of great influence on any herd. The Borderdowns cattle have been bred to perform under the toughest commercial conditions and have decades of AI breeding to back them. The cows are predominantly bred from Millah Murrah Sires including Millah Murrah Loch up, there is also some Landfall Keystone throughout the draft. Calves are sired by sons of S Chisum 255. These 2nd calvers are rarely offered to the market and are doing an outstanding job on their calves. They are predominantly large framed and are very forward, they are sound footed and are all milking very well and will turn off heavy weaners with ease. Cows & Calves have been mothered into two groups of 20 after the assessment.
