Assessor Comments	Offering a VGQ line of 180 Angus steers. The steers were 371kg live at assessment. The steers were weighed into a range from 340kg to 425 kg and a sample of the lead steers were mouthed with all showing milk teeth. The steers were purchased in from highly regarded herds in the Eastern Riverina and Upper Murray area back in April 2025. Don't miss this opportunity to purchase a large line of well-bred quality Angus steers that are in a tight weight range with plenty of compensatory gain. Please note 10 head were sighted with old blight scarring at assessment. Also note there are another 3 decks of crossbred flatback steers in the sale from the same vendor.
