Assessor Comments	A very attractive line of clean shedding ewe lambs that are well grown for age and display great shape and bone. They are generally clean in the skin with some still holding a small cape which will shed with warmer weather. The "Eyre White" program is designed around clean skins, fecundity and carcase merit and these ewes are a great representation of the program. Ideal to join an existing flock or build a program from. Note the odd black spot (2 ewes) or freckles are obvious on face or shanks on a small percentage of ewes.
