Temperament

Quiet: 28 head Slightly Stirry: 5 head	Quiet: 30 head Slightly Stirry: 3 head	Temperament not assessed in Paddock

	Temperament is an absolute highlight of these steers. All cattle flow freely through the yards and remain very sensible during weighing. While I have not personally handled them in the paddock, I have observed them being moved with a side-by-side ATV and dogs, and they remained calm and easy to handle throughout.

Weights range from 321 kg to 421 kg, with an average liveweight of 376 kg at assessment. The steers represent the later protion of the 2024 spring drop and are by Bowen Angus sires out of quality Coffin Creek, Onslow, and Millah Murrah dams, reflecting depth of genetics. These steers are up to date with animal health and exhibit good bone, frame, and softness, with a very sound temperament and consistent type. Ideal to take through to heavy feeders or finished slaughter, and well suited to either grass or grain programs.
