Assessor Comments	**CLASSED IN EWE HGTS** This line of dispersal ewes is a classed in line of the Battersby's poll merino ewe hoggets. These are only available due to a change in direction of the grazing operation looking to focus on the meat sheep into the future. These ewes have the maturity, growth and condition to take the ram right away. These ewes offer the astute purchaser to take a rebate with a shearing before lambing as they have 50mm plus skins already from a July shearing. Odd ewe doesn't present perfect due to couple of learner shearer's having a go. This is an ideal opportunity to step into a quality line of classed in dispersal ewes on the Flairdale blood line. Please note, Vendor also selling their 65 surplus ewe hoggets in the same sale to increase numbers if so desired.
